# Youth Centre Marttinen - a safe environment with rich experiences

Our center is located in beautiful natural landscapes in Virrat, about 270 km from Helsinki, 100 km from Tampere and Seinäjoki and 115 km from Jyväskylä.

We have activities, conference facilities, restaurant with organic and local food, and accommodation in hotel rooms and log house apartments.

## A Safe, Goal-oriented and High-quality Youth Centre Environment

The Youth Centres offers a safe and responsible environment for various camps, courses, training sessions and other events throughout the year. We are Finland's most popular school camp organiser, with an emphasis on experiential education. We also organise themed camps, nature schools and many other international youth events.

### Experienced staff

Our instructors are highly qualified and have certification in youth work, education, sports or environmental studies. They are positive, have good social skills and are all-round professional group leaders.

Finnish Youth Centres are supervised and subsidised by the Ministry of Education and Culture.

## International youth work

**One of the basic tasks of all Finnish Youth Centres is to promote peace education and the international activities for young people, as has been the case at Marttinen.**

We co-operate extensively with both the European Youth Centres, which have been awarded the **Council of Europe Quality Label for Youth Centres**, and with an extensive network of European partners working around wide range of topics. In addition, Marttinen is a partner in projects that develop international youth work and methods for youth work. Cooperation will create policies, events and training to support the growth of children and young people towards responsible and active global citizenship.

Marttinen's international work coordinators **Antti Korhonen** and **Sami Sorjonen** (email: [kv@marttinen.fi](mailto:kv@marttinen.fi)) guide and help in the twists and turns of internationalisation by providing information, opportunities project advice related to **Erasmus+ and European Solidarity Corps projects**.

Various Job shadowing and study visits for those working with young people are also under the coordination of Marttinen's international youth work.

A young man with glasses, wearing a blue hoodie, is sitting on a wooden structure in a lush green forest. He is looking towards the camera. The background is filled with dense green foliage and a wooden path leading into the distance. Overlaid on the image are six colored circles, each containing a word in a different color and font style. The words are: Experiences (purple circle, purple text), Being together (orange circle, orange text), Diversity (dark blue circle, white text), Safety (light pink circle, dark teal text), Equality (teal circle, white text), and Participation (orange circle, white text).

## Pathways for internationality

For information and guidance contact our International Youth Work Coordinators Antti Korhonen and Sami Sorjonen [kv@marttinen.fi](mailto:kv@marttinen.fi)

### For young people we offer:

#### Youth exchanges

From couple of days to a couple of weeks, young people (from 13–30 years old) and their leaders can come together to exchange and work on topics that are meaningful for them. Groups from different countries go through the process of designing, communicating, implementing the experience together with the help of Marttinen's tailored support. An easy way to start your international journey!

#### ESC Volunteering

Individuals (18–29 years old) can jump in to an experience of a life time to volunteer and help a cause or organisation they want to support, at the same time learning and living in a different culture. Volunteering activities can range from a couple of weeks to a full year, working for a wide variety of non-profit organisations, public services and more. The process includes thorough coaching and supported reflection from start to finish, definitely leaving an international mark for the years to come!

## For people working with young people we offer:

### Training courses and seminars

Whether you're hoping to improve your language skills, gain international experiences or focus on some serious personal and professional development, there's an international learning opportunity for you out there! Trainings and seminars are a form of "educational travel for adults" where you embark on a learning journey focusing on a specific topic, catered to your needs. Marttinen helps you find that need, and putting your learning in to practice once you return.

### Study visits

Catering to groups and networks wishing to see how "the bread is made abroad", study visits are a great way to take off for a few days with your colleagues to gather knowledge and learn from different realities, from a different country. You can join a study visit program to simply "see and hear" your international counterparts sharing their stories, practices and approaches and bring back a lot of ideas for your own development.

### Job shadows

From a few days to few months, one can travel to "shadow" a peer professional in another country, in order to learn different approaches, methods, tricks of trade and "new spices" to bring back home to your own practices. An easy way of "changing the professional scenery" for a bit, and getting new ideas and steam for yourself and your organisation. Job shadows are customised tailored to fit the needs and learning objectives of each individual.

### Coordination and support for organisations

Embarking on processes and introducing internationalisation to your own reality can be demanding, but you don't have to do it alone! Marttinen's coordination team has extensive experience on international processes, partnerships and funding opportunities, and our mission is to support your organisation to benefit from them as well! We support projects and processes start to finish, and are always ready for you to reach out to us when needed! For tasters of internationality – you can also approach us if you want host international workshop, hear about our experiences, find new partners, or just are interested internationality!

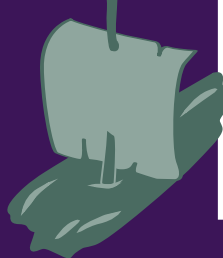

### Bridge swinging

The rope is attached to the other side of the bridge from the climber and drawn under the bridge and attached to the climber. When the climber jumps down, the rope swings them like a big pendulum back and forth. This is the craziest of our height activities. It is recommended for upper-grade students and older.
